Whew! What a hot spell early  
last week. Plants hardening and  
making seed were tested and I  
was happy moving about with  
the hose, deep watering around  
roots and enjoying the powerful  
flower fragrances wafting on the  
air. While writing this, the  
promise of heavy rain is pending  
- so I wait in anticipation.

I have divided clumps of Violas

now finished flowering. Dig up part of a large clump and  
basically pull it to bits, planting sections with roots into  
pots.

By the start of next Winter, the small pots will be filled with  
roots, new leaves and buds ready to be planted out.

The same for Polyanthus and Primulas - break up clumps;  
plant out only fresh new growth and throw away knotted old  
spent roots.

Drifts of blue and white Agapanthus are putting on a great  
show around town. Once finished flowering, clumps can be  
dug up (if is manageable enough to do this) then pull off  
small rooted sections and plant out on their own using fresh  
compost to get roots going again. Agapanthus are great gap  
fillers in new gardens - they can always be removed as you  
fill your garden with permanent plants.

**Cut back border and rockery perennials** as they finish  
flowering, to get superior blooms on Gerberas, Dahlias and  
Delphiniums - dead head and give fortnightly feeds of liquid  
fertiliser. Remove excess buds from large flowering  
Chrysanthemum - they will be flowering soon.

The ground is getting hungry here now, so I plan to give  
areas opened up after a cutting back a good soak then a top  
up with compost to encourage spreading plants to make new  
roots.

**Resist the urge to shift Shrubs** - they would suffer by being  
shifted at this time of the year, even if the water was kept up  
to them. Best to wait until the end of Autumn when sap is  
down. If large Shrubs are needing to be shifted, wrench them  
now in readiness to lift them at the right time. Wrenching is  
when one half of the roots are dug around and lifted, then  
compost is added. Keep water up once roots have been cut or  
disturbed and the wrenched Shrub / Tree will survive with  
being fed from the remaining untouched roots, while at the  
same time the other half is making new roots into the  
compost.

**Seeds:** with all this hot weather there are plenty of ripe seeds  
to be had from Foxgloves, Poppies, Dianthus, Lupin,  
Marigold, Sweet pea, Lavender, Snapdragon - even  
Rhododendron and Azalea. Store them in brown paper bags  
in a dry place( where mice cannot get at them) plant into  
seed raising mix at the end of next Winter.

Mulching of the soil is beneficial right now, but always apply  
mulch to ground that has been well soaked - then you can  
forget about watering for a while because the mulch will do  
the job of keeping moisture in the ground. Un-sprayed grass  
clippings mixed with compost as a mulch around plant roots  
works well.

**Lawns:** If you are thinking of sowing lawn this Autumn,  
prepare the ground soon by spraying out perennial weeds,  
then rotary hoe the area to ensure there will be no hard pan.  
Firm and create an even surface by raking and more raking,  
to create a fine top layer to sow seed. Warm ground and  
gentle watering will have the seed struck in no time. Leave  
fertilising until the lawn is really established - new grass will  
burn easily.

# **NORTH OTAGO PHARMACY**

**WE WILL LOOK AFTER YOU**

**Open 7 days**

Sunday until 5pm

Ph (03) 434 8246

**Veg and Fruit;** Vegetable gardens will be well picked over by now. Keep the water up to Corn and Pumpkins to ensure a juicy crop - they both need a long ripening season. Dig out old spent Strawberry plants that have finished cropping and discard. Plants that are being kept for another season should have runners cut off now to preserve the strength of the main clumps. Transplant strong runners for new croppers and keep the water up until they make roots.

Apple trees are producing well this year and the birds are having a ball. I have been picking and stewing those I see the birds have been at. Store apples in a cool dark place, check them often and remove any that show signs of rot. If you have too many apples to deal with, I am sure there will be plenty of takers or maybe try your hand at making cider. Time to cover Grapes - the birds are waiting to feast....

*Cheers, Linda*

## **New Business**

### **Shona Campbell-Savage: Marriage Celebrant**

I am privileged to be a trained and registered independent marriage celebrant who is able to officiate on your special day. I will work with you to craft a bespoke ceremony that will share your own, very personal love story. This will acknowledge your shared values, culture and personalities and involve the people who are important to you. Each couple is unique and I will ensure that your ceremony reflects this.

I am enthusiastic and professional about my role as a celebrant, so am confident that you will find me to be friendly, honest and helpful as I work with you to prepare and deliver a ceremony that finishes with you leaving as a legally married couple.

As a member of the Celebrants Association of New Zealand (CANZ) I value the ongoing professional development and support that this offers.

I live in Kakanui and have been based in the Waitaki district for 30 years. We live in a beautiful district in which to have weddings but I would also be happy to travel to other special places for your ceremony.

Please contact me to discuss your plans as I would be delighted to be your celebrant of choice.

I am currently taking bookings for the 2019/2020 wedding season.

Email: shona.celebrant@gmail.com Cell: 027 3109292

## **Clutter Free**

After attending Lynley Caldwell's talk during the recent Summer School on "Decluttering Your Home" it re-sparked my interest in this subject. So I decided to see if others are interested in following on with this topic for ideas, hints, support and discussions.

I have booked the Community Room at the Oamaru Library from Tuesday 5th March 10-11.30am to see if there is others interested.

This is free to anyone wanting to participate.

Hope to see you there. Any comments or questions phone Daphne on 4346249.

## **55th Annual 2019 Waikouaiti Rodeo**

The 55th annual 2019 Waikouaiti Rodeo is set to be held on Saturday the 2nd of March 2019 at the Beach Road Sports Complex. This year's local rodeo will kick off the new 2019/2020 New Zealand Rodeo Cowboys Association season with cowboys and cowgirls travelling from throughout the country to get a head start on winning some points.

The club committee has been putting the final touches on organizing a fun family day out with a free kids' corner providing entertainment and a chance for a "Selfie with a Cowgirl". The gorgeous barrel racer, Chanelle Dickie from Christchurch, will be on hand to talk to any pony mad kids who have any questions or would like their photo taken with her. Trying to get a good start to the season will be leading Barrel Racer and Oamaru local, Rhondine Long, on her horse Roc. Photograph courtesy of PRW Photography

The day will kick off in the morning with Second Division contestants trying to earn enough points to break open and compete against the top boys and girls in the Bareback, Rope and Tie, Saddle Bronc, Barrel Racing, Steer Wrestling, Team Roping and Bull Riding events. Youth contestants will also get a turn in the novice bull ride, junior bull ride and junior barrel racing events.

The club is hoping to put on a great day packed full of action with entertainment at half time and it promises to be a great day to spend with friends and family. Keep an eye out on their Facebook page (@Waikouaitirodeo) for more information including a start time and any updates for rodeo day.

## **Terraflora™ - Broad Spectrum**

### **Synbiotic**

It has finally arrived — the exciting new **Terraflora™** synbiotic. A synbiotic is a combination of probiotics and supporting prebiotics. **Terraflora** is extremely supportive of your entire microbiome (the microorganisms in your body) and gut-based immune system.

#### **What is Terraflora™ ?**

**Terraflora™** is a broad spectrum synbiotic formulated with a combination of spore form probiotics, and advanced, food-based, ancient prebiotics designed to support gastrointestinal health.

#### **Who should use Terraflora?**

**Terraflora** has Supporting Prebiotics which induce the growth or activity of beneficial microorganisms such as bacteria and fungi. It also has Probiotics which have benefits such as helping to Balance The Friendly Bacteria in Your Digestive System, Can Help Prevent and Treat Diarrhoea, Can Help Reduce Symptoms of Certain Digestive Disorders, and May Help Boost Your Immune System and General Well Being.

**Terraflora™** doesn't contain : dairy, wheat, yeast, gluten, corn, sugar, soy, shellfish, tree nuts, or GMOs. Made without stearamides, fillers, binders, flow agents, or additives of any kind. Making it suitable for most people.

#### **What is the difference between a regular probiotic and Terraflora™?**

**VIABILITY** – The natural seed-like structure encasing the probiotic bacteria in **Terraflora™** protects them against degradation by stomach acid, so they reach their target destination — the lower GI tract — intact and alive.

**ADVANCED PREBIOTIC SUPPORT** – Uniquely formulated with organic seaweeds, mushroom extracts and humic acid. Terraflora's advanced prebiotic complex contains a diverse spectrum of naturally occurring food-based polyphenols and polysaccharides designed to support healthy intestinal flora.

**ANTIOXIDANT BENEFITS** – **Terraflora™** features Ribospore™ (Bacillus pumilus) and Bacillus megaterium EM144™, two novel probiotic strains shown in studies to produce highly bioavailable, gastric stable antioxidant carotenoids, right at the site of absorption.

#### **CONVENIENT — NO REFRIGERATION NECESSARY! –**

To ensure potency and viability, most probiotics require refrigeration and have a short shelf life. The inherently resilient bacteria in Terraflora™ are heat-stable, and require no refrigeration, uniting convenience and efficacy.

**Terraflora™** is now sold at **Oamaru Pharmacy**. Come in and see us, the team is always ready to help with friendly and knowledgeable advice. And don't forget to check out our mailer that is out now.

## RealFood Pantry Refined Sugar Free Chocolate Cake

### Ingredients

- 2/3 cup milk of choice
- 1 1/2 tsp vinegar
- 1/2 cup pure maple syrup or honey or agave.
- 1/4 cup vegetable or melted coconut oil
- 2 tsp pure vanilla extract
- 1/3 cup cocoa powder (not dutch)
- 1 cup loosely packed spelt, white, or gf all-purpose flour
- 1/2 tsp salt
- 3/4 tsp baking powder
- optional 1/2 cup mini chocolate chips

### Instructions

Refined Sugar Free Chocolate Cake Recipe: Preheat oven to 350 F, and grease an 8-inch square or round baking pan. Whisk together the first 5 ingredients, and set aside for at least 10 minutes. Meanwhile, stir together the remaining ingredients in a separate bowl until well-mixed. Pour wet into dry, stir just until evenly mixed, and transfer to the prepared pan. Bake 20 minutes on the middle rack, or until cake is light and fluffy and a toothpick inserted into the centre comes out clean. (If using a 9-inch pan for a thinner cake, you may have to experiment with the baking time.)

got a ding?
